

WHERE THE WORLD OF IR MEETS

Barcelona, Spain  
September 7-11  
**CIRSE 2019**

## LAST CHANCE TO SAVE ON REGISTRATION FOR CIRSE 2019

Secure your spot for CIRSE 2019 by June 6 and save up to 55% in registration fees! Plus, you can save even more with the special flight discounts offered by the Lufthansa Group and the great hotel offers available through CIRSE's official travel partner Kuoni.

## Secure your Travel Grant to attend CIRSE's new embolisation meeting ET!

In an effort to support education in embolotherapy, CIRSE has secured additional funding to enable more IRs to attend ET 2019. Apply now for an educational grant of up to €1,200 to cover your travel, hotel and registration expenses to attend ET 2019 in Valencia, Spain!

## New IR Curriculum and Membership for Medical Students

CIRSE has released a newly revised IR Curriculum for Medical Students introducing them to the most common IR procedures. In addition, medical students are now able to join CIRSE through a dedicated membership category. Make sure to share and spread the word among your students!

## Watch the new video about the CIRSE journal family!

Watch this video featuring CVIR's EiC Prof. Klaus Hausegger and CVIR Endovascular's EiC Prof. Jim Reekers to learn more about the CIRSE journals and how they support interventional radiology as platforms for high-quality IR education and research.

## Meet & Greet with CVIR Endovascular Editor-in-Chief

Attending ET 2019 in Valencia? If so, make sure to join CVIR Endovascular Editor-in-Chief Prof. Jim Reekers for a meet & greet at the journal booth any day of the conference to enjoy an interesting conversation about the field and a chance to ask questions about the journal over coffee and pastries.

## Call for cancer experts to advise European Commission

The European Commission has launched a call for experts to join 'Mission Boards', which will advise the commission on the identification and implementation of missions in Horizon Europe – the next EU research and innovation programme. Learn more about this and other IR positions on the CIRSE Vacancy Finder!

## New CIRSE Registry on Microwave Ablation of Liver Metastases

CIRSE is proud to announce that CIEMAR, the CIRSE Emprint Microwave Ablation Registry, has been launched, and centres suitable for participation have been invited. CIEMAR is planning to be the largest data collection on MWA for CRLM in Europe, with its first patients to be enrolled in January 2020. Find out more!
