

The spring edition of IR News is now available

IR NEWS OUT NOW

The Spring edition of IR News is now available online! Check out what CIRSE's education, research and accreditation initiatives have accomplished so far in 2020. Highlights include an interview with KSIR President Jin Wook Chung, a memorial page honouring the life and accomplishments of Dr. Kurt Amplatz, and an essay from CIRSE Past President Robert Morgan about his outreach work in Myanmar. Also included is an interview with ESIR local host Giovanni Mauri, explaining the importance of the brand new ESIR course on thyroid thermal ablation.

CIRSEwebinars

Complete COVID-19 webinar series now online

Watch all three instalments of CIRSE's webinar series on how the virus has affected IRs' daily practice free of charge via the CIRSE Library! Featuring interventionists from heavily affected areas, the presentations and discussions offer unique insights into how to optimise department setups, workflows and approaches to treating infected or potentially infected patients.

CIRSElibrary

New topic package: Metastatic colorectal cancer

Browse the CIRSE Library's new topic package on metastatic colorectal cancer put together by Laura Crocetti! Featuring the most topical sessions from past CIRSE congresses, guidelines and recommendations for further reading, this collection extensively covers ablative techniques, including their comparative evaluation with surgery and radiotherapy. As always, CIRSE members browse for free!

New CIRSE SOP on Thermal Ablation of Liver Tumours

The newest CIRSE Standards of Practice document reviews current literature and provides best practices for image guided thermal ablation of liver tumours, including radiofrequency, microwave and cryoablation techniques. Available free access for the next 4 weeks!

New video promoting Students Curriculum

CIRSE has produced a video detailing cryoablation of a large desmoid tumour at Strasbourg's Hôpital Civil in order to show medical students one of the many impressive procedures IR has to offer. Watch the video now and make sure to share it on social media!

ETF publishes report on IR training in Europe

For the first time ever, CIRSE has published a report conducted by the ETF Subcommittee. 25 members of the subcommittee, representing 24 countries throughout Europe, provided valuable input concerning the status of IR training in their countries.

CVIR Endovascular editorial

The journal's latest article, authored by M. Hamady and S. Müller-Hülsbeck, comments on the ESVS Guidelines on Management of Acute Limb Ischaemia and their implications for IR. Read it free of charge!

Free educational content

CIRSE is currently offering six Academy courses free of charge. Don't miss the chance to increase your knowledge on a variety of subjects and earn CME credits!
