

OUT NOW!

THE WINTER EDITION OF IR NEWS IS ONLINE NOW

Challenges aside, 2020 was a busy year for CIRSE which included several notable highlights. Review the CIRSE 2020 Summit, check out what's coming next, and read what members of our society are up to! This edition includes enlightening interviews with new group members, information on the new online-proctored EBIR, updates on ECIO Virtual and much more!

The CIRSE All-Access Pass

CIRSE has created an All-Access Pass for the entirety of its 2021 congresses, courses, webinars, and online learning tools, including the CIRSE Academy and the CIRSE Library, to ensure that your year in IR will be worry-free!

The offer is available until March 4 – secure yours now!

Submit your abstract for CIRSE 2021

Abstract submission is now open for CIRSE 2021 and includes two new categories: FIRST@CIRSE clinical trials and trial design and methodology. The IR Trainee Support programme allows trainees who submit abstracts as a first or presenting author to attend the congress free of charge.

ECIO Virtual – lung and renal tumours

Throughout the half-day webinar, an international expert faculty will scrutinise a wide array of aspects of lung and renal tumour treatment. Registration is free for CIRSE members and includes on-demand access to all content from the ECIO Virtual series.

ECIO 2021

After ECIO abstract submission was extended by popular demand, submissions are now being evaluated and submitters will receive a decision notification soon. ECIO 2021 will take place online from April 10-13. Browse the programme now to find out what's in store!

CVIR

Need a good read to start the new year? Check out this article from the January edition of CVIR: Genicular Artery Embolization for Osteoarthritis Related Knee Pain: A Systematic Review and Qualitative Analysis of Clinical Outcomes.

CIRSE Library topic package: pulmonary embolism

Compiled by the CIRSE Online Education Committee, topic packages showcase the wealth of CIRSE's online material in topic-focused contexts. Check out the latest package, compiled by F. Wolf, focusing on the management of acute pulmonary embolism.

Thematic series on paediatric IR

CVIR Endovascular guest editors Dr. Alex Barnacle and Dr. Anne Marie Cahill have put together an article collection dedicated to paediatric IR, detailing the latest evidence for a range of complex interventions in children and demonstrating where best practice lies in this highly specialised field. Browse the collection!

Student internships

CIRSE's ETF has established contacts to several medical institutions in Europe who are offering an internship to medical students to help them learn more about what working as an interventional radiologist is like. Make sure to pass this on to your students!

CIRSE @ APSCVIR

The Asia Pacific Society of Cardiovascular and Interventional Radiology (APSCVIR) will hold its annual meeting online at the end of February. Attendees should be sure not to miss the APSCVIR meets CIRSE session on February 26!

ETF Webinars

The European Trainee Forum will conduct a free webinar with basic or intermediate content every month during 2021. Make sure to share with your students and trainees! The first webinar takes place on January 28!

IR vacancy of the month

The research fellowship at the Memorial Sloan Kettering Cancer Center in New York is still accepting applications until January 31. View this and other IR vacancies or add an open position from your hospital through CIRSE's IR vacancy finder.

EBIR

The recent remote, online proctored European Board of Interventional Radiology exam was the first to allow candidates to take the exam from anywhere in the world – and also the first to be offered in a second language. Click here for more information and to register!

Thank you for participating in the **tumor ablation Peer-to-Peer Experience Review Online Seminar** on November 4th.
