

CIRSE CLINICAL PRACTICE MANUAL NOW AVAILABLE

CIRSE CLINICAL PRACTICE MANUAL NOW AVAILABLE

CIRSE CLINICAL PRACTICE MANUAL NOW AVAILABLE

Thanks to the tireless work of Prof. Andreas Mahnken and the entire Clinical Practice Manual Task Force, the up-to-date CIRSE Clinical Practice Manual was published in CVIR earlier this month! The manual provides the most current information on IR clinical practice and principles for delivering high quality care, delving into topics such as clinical skills, principles of practice, organisation in IR and infrastructure for clinics. Taking into account interventional radiology's transition from a technical to clinical specialty, the manual provides an important starting point for IRs to develop their practice as a clinician.

Be sure to read and share the manual with your IR friends, colleagues and students!

Secure your spot for CIRSE 2021 today and save on registration!

The CIRSE 2021 Summit will once again provide the world's most comprehensive platform for IR research, innovation and evidence-based clinical care. More than 100 live sessions featuring 270 presentations will be streamed on four channels throughout the congress days and there will be ample opportunities to connect with peers and the renowned faculty via the custom-made interactive online platform. Start browsing the programme and secure your spot today to save up to 45% on registration fees!

Browse ET 2021 on demand

ET 2021 was accessed by more than 1,200 unique users during the live congress days alone. Don't miss the opportunity to get in on the action with 100 lectures on the latest developments in embolotherapy. All content will remain available on demand via the congress platform until August 31, after which registrants will be able to view presentations via the CIRSE Library. In addition, the seven satellite symposia presented by CIRSE's corporate partners can be viewed free of charge by all interested parties.

Build your interventional oncology services with IASIOS!

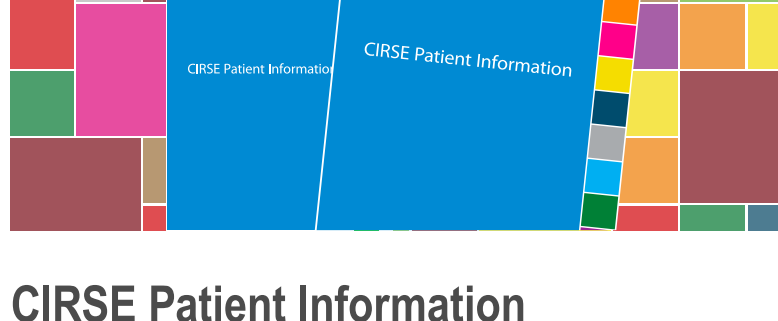

The newly launched IASIOS system has quickly gained recognition and interest from all around the world. Establishing a standardised level of care in IO on a global scale means an increased awareness and accelerated development of this important specialty. Join the growing IASIOS community of dedicated experts striving towards meeting the standards of quality assurance in IO and achieving the seal of IASIOS Accredited Centre in order to increase treatment efficiency and patient safety.

European Cancer Summit 2021 – Special discount for CIRSE members

The European Cancer Summit 2021, taking place from November 17-18, 2021 both in Brussels and online will focus on the implementation of Europe's Beating Cancer Plan and the EU Cancer Mission's recommendations, including through the nine E.C.O. Focused Topic Networks. As a CIRSE member, you are eligible to receive a 50% discount on the event by registering before September 17. Not yet a member? Find out more about all the CIRSE membership benefits.

Topic package: Joint embolisation

Joint embolisation aims to control pain and inflammation as well as improve mobility and function whilst the novel cell-based therapies can delay surgery by facilitating bone and cartilage regenerative repair. Browse this topic package for a selection of lectures and further reading to enhance your knowledge on this interesting topic!

CIRSE Patient Information

The new CIRSE Patient Information Leaflets are now available in multiple languages! Thanks to the efforts of the European Trainee Forum, the leaflets are now online in Croatian, Italian, Serbian, Slovenian, and Swedish, with many more languages coming soon.

New Standards of Practice document

Read the recently published CIRSE Standards of Practice document on below-the-knee revascularisation, providing recommendations for performing the procedure, taking into account data on novel techniques, devices and long-term outcomes that have emerged over the last decade. Access this document for free of charge in CVIR!

Welcoming the Editorial Board members

Exciting news! This year the first nine members of the CVIR Endovascular Forum have been promoted and invited to become members of the journal's Editorial Board. [Click here](#) to find out who they are, and if you interested in joining the CVIR Endovascular Reviewer Forum, just contact us at info@cvirendovascular.org.

It's not too late to get your All-Access Pass

Gain access to all CIRSE congresses, webinars and online education tools in 2021 for one low fee with the All-Access Pass! Staying up to date on everything IR has never been easier. Or cheaper! The All-Access Pass can now also be purchased through group registration to enable your entire team to learn, share and connect with interventional specialists from around the world throughout the year!

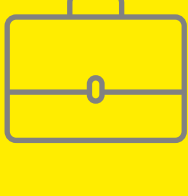

Literally speaking

Get to know some of the funnier aspects of the many languages spoken by our members in our new segment, where we take a proverb from somewhere in the world and translate it word for word into English.

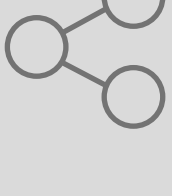

Can you guess in which European language says that someone “**pours ashes on their head**” to show remorse for past mistakes

Let us know a funny proverb in your language at communications@cirse.org!

IR vacancy of the month

SLK-Kliniken Heilbronn are accepting applications for a full-time resident position at their Department of Radiology and Minimally Invasive Procedures. If you are interested in this position, make sure to apply today!

Let us know what matters to you!

If you would like to share interesting news about your institution, research project or interventional radiology in general, let us know at communications@cirse.org!

Was the content of this newsletter relevant to you?

- Absolutely! Meh.
- Some of it. Sorry, I had nodded off.

Literally speaking – Answer

“**Sypat si popel na hlavu**” is the Czech way to say that someone criticizes themselves for failure, weakness, or mistake
