

SUBMIT YOUR EMBOLISATION WORK FOR ET 2022!

The European Conference on Embolotherapy continues to grow and is now accepting abstracts in the categories Scientific, Educational, Case Report, and First@ET Clinical Trial. Don't miss this change to share your teachable moment or present your latest research live on stage at the world's biggest meeting focussed exclusively on embolisation treatment! Find out more about requirements here and make sure to submit your abstract by February 17.

Take your MDT colleague to ECIO 2022

In an effort to support multidisciplinary teamwork in cancer care, the Collaborating Against Cancer Initiative is allowing interventional radiologists who have registered for ECIO 2022 to bring an MDT colleague to the congress free of charge with up to €1,000 in travel support. Sign up today for this fantastic opportunity to show your colleagues in depth what IO can do for the patient!

Abstract submission for CIRSE 2022 now open

After two long years, the CIRSE Annual Congress will finally be back as an in-person meeting, not only providing congress goers with a fantastic programme covering the entire gamut of IR treatments, but the joy of reuniting with old friends and colleagues from around the globe. What an opportunity to present your work to the world of IR! Click here to find out more about abstract categories and requirements, and submit your abstract today!

Course on varicose veins, varicocele & pelvic congestion

In this two-day ESIR course organised by Dr. Aldin and the endovascular team at the Princess Alexandra Hospital in Harlow/UK, attendees will learn about the fundamentals and techniques for treating varicose veins, pelvic congestion syndrome and varicocele. A large part of the course will be dedicated to hands-on experience with various devices and ultrasound assessment of patients with varicose veins by each candidate. Places are limited, to make sure to secure your spot today!

Host an ESIR course at your hospital

The European School of Interventional Radiology has hosted two-day intensive courses on all types of interventional procedures since 2006. The courses' combination of lectures, case discussions and practical hands-on components have made them a popular educational tool for novices and experts to stay up-to-date on procedures, techniques and the latest medical devices. If you would like to support your specialty by hosting an ESIR course at your institution in 2023, let us know by March 7.

Topic package: Technologies in the spine

With the constant output of new technologies for the management of spine pathologies, it is hard to keep track of the continually evolving field. This is why the CIRSE Library now offers a dedicated topic package featuring some of the most relevant recent lectures, guidelines, and further reading.

Digital All-Access Pass

Purchase your Digital All-Access Pass today to gain online access to ECIO, ET and CIRSE 2022, more than 10,000 titles via the CIRSE Library, and all CIRSE Academy courses throughout the year! In addition, you will enjoy strongly reduced onsite registration fees for all 2022 CIRSE congresses.

Optional open access

If your institution has a transformative agreement with Springer, you may qualify for free publication of your work as an open access article in CVIR, making your research more visible and accessible immediately upon publication. Check your eligibility [here](#).

Publish your endovascular research free of charge

CVIR Endovascular is offering to waive the article processing charge for scientific articles! If you have an endovascular paper in the pipeline that follows the guidelines for reporting on studies and would like to make it available as an open access article, contact us by Feb. 28 at info@virendovascular.org! For details on the, guidelines visit our [website](#).

Literally speaking
Get to know some of the funnier aspects of the many languages spoken by our members in our new segment, where we take a proverb from somewhere in the world and translate it word for word into English.

Can you guess in which language someone might declare that something is **“the raisin at the end of the hot dog”** ?

Let us know a funny proverb in your language at communications@cirse.org!

Let us know what matters to you!
If you would like to share interesting news about your institution, research project or interventional radiology in general, let us know at communications@cirse.org!

Was the content of this newsletter relevant to you?

Absolutely! Meh.

Some of it. Sorry, I had nodded off.

Literally speaking – Answer
“*Rúsínan í pylsuendanum*” is Icelandic for the best part of something.
