

European Conference on Interventional Oncology

ECIO 2022

APRIL 24-27 | VIENNA, AUSTRIA

LEADERS IN ONCOLOGIC INTERVENTIONS

JOIN US FOR ECIO 2022!

After two long years, the European Conference on Interventional Oncology will once again be held as an onsite event welcoming interventionists and physicians from neighbouring specialties to earn up to 20 CME credits while enjoying more than 150 lectures over four days of live programming in Vienna. Colleagues who will not be able to join us in person are invited to watch the lectures online, where all sessions will be available for live and on-demand viewing via the customised congress platform.

Catch the early fee

Don't miss the embolisation meeting of the year taking place from June 22-25 in beautiful Nice! Early registration fees are still available, providing up to 70% in savings. To catch a sneak peek at some of this year's most interesting topics and browse the programme, click here!

IR spring edition

Browse the most recent edition of CIRSE's society newsletter to find out about research initiatives, an update on the International Accreditation System of Oncology Services (IASIOS), a comprehensive preview on ECIO 2022, ET 2022, and many more interesting topics.

Award of Excellence and Innovation in IR

The Rolf W. Günther Foundation for Radiological Sciences is now accepting nominations for the Award of Excellence and Innovation in Interventional Radiology. Given to some of the most innovative physicians in the field, the prestigious prize comes with a cash prize of € 6,000. Find out if you or your team fulfil the necessary criteria and apply today!

Patient information posters

Help inform patients about the many procedures offered by interventional radiologists with our new posters which can be downloaded and printed for display in waiting rooms. QR codes provided on the posters refer interested parties directly to CIRSE's patient information pages where they can learn more about specific procedures. In addition to the posters, patient information leaflets in nine languages are also available for download.

New SOP on thermal bone ablation

CIRSE has just released its latest standards of practice document providing best practices for thermal ablation of bone tumours. A big thank you to Anthony Ryan and the entire working group for putting together this document! The SOP is freely available, so make sure to share it with your colleagues!

New blog

We are proud to introduce "Speaking of Endovascular Interventions" – CVIR Endovascular's new blog, a platform for multidisciplinary discussions about vascular IR between peers, IR thought leaders, and readers! Click on the link for details on how to join the discussion!

CIRSE library

Topic package: TEVAR – What's new

Browse the CIRSE Library's new topic package on the latest developments in thoracic endovascular aortic repair! Curated by Y. Zaarour and H. Kobeiter, the collection includes the most relevant lectures from CIRSE congresses as well as guidelines and further reading.

Literally speaking

Get to know some of the funnier aspects of the many languages spoken by our members in our new segment, where we take a proverb from somewhere in the world and translate it word for word into English.

Can you guess in which language someone might say that they are **"flat out like a lizard drinking"**?

Let us know a funny proverb in your language at communications@cirse.org!

Let us know what matters to you!

If you would like to share interesting news about your institution, research project or interventional radiology in general, let us know at communications@cirse.org!

Was the content of this newsletter relevant to you?

Absolutely! Meh.

Some of it. Sorry, I had nodded off.

Literally speaking – Answer

"Flat out like a lizard drinking" is actually used in English, in Australia to be precise. It means that someone is very busy.
