

NEUROENDOCRINE LIVER METASTASES: INTEGRATED THERAPEUTIC APPROACH

Thursday, December 1, 2022, 17:00-18:20 CET

in collaboration with

FREE WEBINAR ON NEUROENDOCRINE LIVER METASTASES

The treatment of neuroendocrine liver metastases is a complex issue requiring close cooperation between various specialties. This is why together with the European Association of Nuclear Medicine CIRSE is hosting a webinar on Dec. 1 from 17:00-18:20 CET on this important subject. The multidisciplinary faculty will cover a wide range of topics, from the current guidelines to the various treatments and combination therapy. This free CME accredited webinar is not to be missed, so make sure to register today!

ETF

Four courses now open for registration

After a very successful relaunch of its in-person courses, the European School of Interventional Radiology will end its year with a two-day course on the reliability of percutaneous tumour ablation taking place in Innsbruck/AT from Dec. 15-16. In addition, the first three courses taking place in 2023 are already open for registration. They will cover critical limb ischaemia, liver and kidney ablation, and PAE, respectively. Browse the programmes and register today!

Webinar on aortic interventions

The European Trainee Forum regularly organises webinars to introduce medical students and young interventionists at the beginning of their career to familiarise themselves with various procedures. In the upcoming instalment of this series, various international speakers will give an introduction to IR treatments for the thoracic and the abdominal aorta. The webinar will take place on Nov. 24 from 18:00-19:00 CET and can be attended free of charge. Make sure to register today and join live!

CIRSE academy

Focus on RADIO-EMBOISATION

Updated course on PAE

The CIRSE Academy offers comprehensive online courses based on the European Curriculum and Syllabus for IR, hence providing the perfect way to finetune your knowledge on specific interventions or prepare to sit the European Board of Interventional Radiology exam. The Academy's course on prostate artery embolisation has just been updated to include the latest data and is now CME accredited. Digital All-Access Pass holders can access this and all other Academy courses at no extra cost!

Radioembolisation in the spotlight!

In November, CVIR featured a particular highlight; a special section focusing on radioembolisation. Curated by guest editors Laura Crocetti and Thierry de Baere, who commissioned nine articles from invited experts, the special section covers all of the most recent insights and scientific evidence on radioembolisation, patient selection, and clinical outcomes. Must-read material for everyone involved in radioembolisation! To access all articles, click here!

CVIR

CVIR ENDOVASCULAR

Let's Krok about it

CVIR's video series with Miltos "Krok"idis is back! In its latest instalment, Dr. Rajeswaran outlines an innovative treatment for unicameral bone cysts, which is faster, has lower recurrence rates, and allows paediatric patients to get back to full activity levels sooner.

Author Spotlight

Our most recent video features Hanno Hoppe discussing the endovascular treatment for and the taboos associated with erectile dysfunction. ED can be an early marker of other cardiovascular diseases and impacts patients' psyche, thus warranting more serious attention. Watch this video and all previous instalments of Author Spotlight here!

Literally speaking

Get to know some of the funnier aspects of the many languages spoken by our members in our new segment, where we take a proverb from somewhere in the world and translate it word for word into English.

Can you guess in which language someone might say that someone is **putting their spleen in broth**?

Let us know a funny proverb in your language at communications@cirse.org!

Let us know what matters to you!

If you would like to share interesting news about your institution, research project or interventional radiology in general, let us know at communications@cirse.org!

Was the content of this newsletter relevant to you?

- Absolutely!
- Some of it.
- Meh.
- Sorry, I had nodded off.

Literally speaking – Answer

“Se mettre la rate au court-bouillon” is French for worrying about something too much.
